EDUCATION

Maharishi Markandeshwar (Deemed to be University), Ambala <i>Bachelor of Technology</i>	CGPA: 9.35 <i>Aug. 2024 – Present</i>
Gita Girls Senior Secondary School, Kurukshetra <i>Senior Secondary (Class XII)</i>	93.2% <i>2024</i>
Gita Girls Senior Secondary School, Kurukshetra <i>Secondary (Class X)</i>	93.8% <i>2022</i>

EXPERIENCE

Open Source Contributor <i>GirlScript Summer of Code (GSSoC'26)</i>	April 2026 – Present <i>Remote</i>
- Contributed to 4 open-source projects through 21 successfully merged pull requests, delivering new features, enhancements, and bug fixes - Achieved Global Rank #718, ranking among the Top 2% of 43,000+ participants with a leaderboard score of 5,197 - Earned 12 achievement badges and reached C Tier through consistent contributions and collaborative GitHub workflows	
Full Stack Development Intern <i>TechnoHacks EduTech</i>	May 2026 – June 2026 <i>Remote</i>
- Developed two end-to-end web applications—a Food Delivery Website and an E-Cart System—as part of a project-based full-stack development internship - Implemented product and food browsing, cart and ordering workflows, and responsive user interfaces across both applications	

PROJECTS

AI Interview Agent <i>MERN Stack, OpenRouter AI, Firebase, Razorpay</i>
- Built an AI-powered mock interview platform generating personalized questions and feedback based on role, skills, experience, and resume - Implemented resume analysis, voice-enabled interviews, timed sessions, performance analytics, and interview history - Integrated OpenRouter AI, Firebase Authentication, and a credit-based system with Razorpay payment integration
Cravely <i>MERN Stack, Socket.IO, React Leaflet, OpenStreetMap, Razorpay</i>
- Built a real-time food delivery platform with secure REST APIs and role-based workflows for users, shop owners, and delivery partners - Implemented real-time order updates using Socket.IO, live delivery tracking, and OTP-based delivery verification - Integrated JWT-based RBAC, Razorpay payments, OpenStreetMap geolocation, food ratings, and order management
SchoolRide <i>MERN Stack, Firebase, React Leaflet, OpenStreetMap, Razorpay</i>
- Built a multi-role school transportation platform with secure REST APIs and RBAC for parents, drivers, and administrators - Implemented ride booking, atomic seat allocation, live tracking, and bus and route management workflows - Integrated Google authentication, Firebase notifications, Razorpay payments, and profile management

LEADERSHIP & COMMUNITY

Google Student Ambassador

May 2026 – Present

Google

Remote

- Organized and hosted **6+ student events and interactive sessions** focused on AI tools, technical learning, and peer engagement
- Conducted interviews with **30+ students** to gather insights and created technical and creative content around emerging AI technologies

Microsoft Student Ambassador

July 2026 – Present

Microsoft

Remote

- Organized student-focused events and interactive sessions to foster technical learning, collaboration, and community engagement
- Contributed to peer learning and knowledge sharing through Microsoft technologies, resources, and community-driven initiatives

ACHIEVEMENTS & ACTIVITIES

- Achieved **1st Runner-Up** in **CodeRush**, organized in collaboration with MMDU and ByteXL
- Secured a **Top 10 position** in a national-level competition organized by NIT Tiruchirappalli and IIT (ISM) Dhanbad
- Selected as a **Semi-Global Finalist** in a competition conducted by the Consulting and Analytics Club, IIT Guwahati
- Developed a **Capstone Project** under **Summer Analytics 2025**, conducted by the Consulting and Analytics Club, IIT Guwahati
- Participated in **25+ national and international hackathons**, including events associated with Goldsmiths, University of London and Canadian University Dubai

TECHNICAL SKILLS

Languages: C++, JavaScript, TypeScript

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Framer Motion

Backend: Node.js, Express.js, REST APIs, Socket.IO, JWT, RBAC

Database: MongoDB, Mongoose

Tools & Platforms: Git, GitHub, Postman, Firebase, Cloudinary, Vercel, Render

Core Concepts: DSA, OOP, DBMS, Authentication & Authorization, System Design Fundamentals
